

## ת"דב THE 7 LAWS OF NOAH

### 1. BELIEVE IN G-D: **Be true to your image.**

G-d created people in His image, not the other way around. Darkness begins when we assign His divinity to a created image, force or being.

### 2. HONOR G-D -- DO NOT BLASPHEME:

**We are what we speak.** We must not curse in G-d's Name, in anger or in jest. And be mindful of words; they show who we are!

### 3. DON'T MURDER: **Value life as G-d's gift.**

We must recognize and value the sanctity of human life. When life isn't valued, taking the life of another can be intellectually justified.

### 4. DO NOT COMMIT THE FORBIDDEN

#### **SEXUAL ACTS: Value the bond of family.**

We must honor the divinity of marriage. The seeds of loyalty, love, health and respect that are planted in the home will translate into loyalty, love, health and respect in our society.

**“WITHOUT THESE ETHICAL VALUES AND PRINCIPLES, THE EDIFICE OF CIVILIZATION STANDS IN PERIL OF RETURNING TO CHAOS.”**

**JOINT RESOLUTION OF THE  
U.S. CONGRESS, MARCH 20, '91**

### 5. DON'T STEAL: **Respect others' property.**

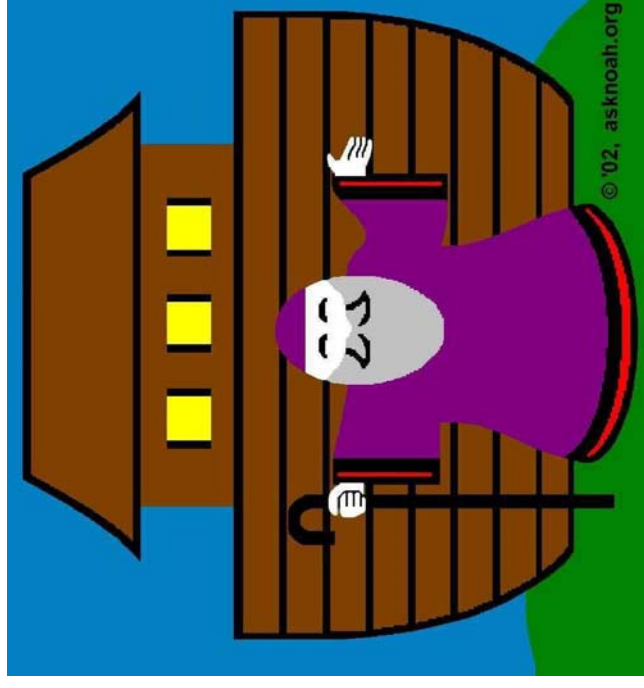

Violating the property of others is an attack on their humanity. Since our sustenance comes from G-d, we should always earn it honestly.

### 6. DON'T EAT MEAT TAKEN FROM A LIVE

**ANIMAL: Show compassion.** The responsibility of humans extends to all G-d's creations, since we are the world's caretakers.

### 7. ESTABLISH COURTS OF JUSTICE: Create

and uphold a judicial system, based on these 7 commandments. Justice is the cornerstone of civilization, and the foundation for a world of true peace which is worthy of G-d's open blessings.
